RENEWABLE ENERGY TECHNOLOGY CONGRESS

18th - 20th March 2010, Le Meridien New Delhi

The Invitation

RAGA Integrated Technology Management Services, India would be organizing a three days International congress-cum-exhibition namely **World Re-EnergyTech-2010** from **18-20 March, 2010** at **Le Meridien New Delhi** with the support of **Ministry of New & Renewable Energy, Govt. of India**. The theme of the congress is "**Global Technology Cooperation for Renewable Energy.**"

It is my privilege to cordially invite you to actively participate in the **World Re-EnergyTech-2010** which will cover all major scientific and technical aspects of renewable energy and its environmental concerns. The main aim is to highlight the status and preparedness of India for managing **climate change** and the opportunities available for **Public-Private Participation**.

World Re-EnergyTech-2010 will bring together industry corporate leaders, technology providers, R&D leaders, senior govt. executives and concerned investors and institutions together with eminent experts from India and abroad to share their experience relating to energy security and sustainable environment and eco-friendly development. About 70 International renewable energy companies, 50 National renewable energy sector companies, 200 exhibitors, 500 International delegates and more than 8000 specialist visitors are expected to attend the congress and the expo.

World Re-EnergyTech-2010 shall provide vital information about the latest concepts, trends and **technological developments** with special focus on fostering co-operation for generating business. The exhibition will showcase latest green technologies, products and services to harness renewable energy in the energy mix. For those interested and involved in renewable energy in India. **World Re-EnergyTech-2010** will provide the best available opportunity to interface with all who matter from ministers and officials in the government to the CEO's and executives from all the renewable energy companies operating in India to scientists and academia. Kindly join us to discuss, **yesterday's experience, today's status and tomorrow's challenges**.

India is known for its warmth of hospitality . We will bring glimpses of India's rich traditions to you. **India offers many opportunities to profit from one of the biggest potential renewable energy markets in the World today.** Come to **World Re-EnergyTech-2010**, to share the dreams and the dividends. We are committed to make this event a memorable one.

We look forward to welcome you to New Delhi for a stimulating and exhilarating professional experience.

MESSAGE

I am happy to note that RAGA Integrated Technology Management Services is organizing World Renewable Energy Technology Congress and Expo during March 3-5, 2010 at Pragati Maidan, ITPO, New Delhi. The theme of the Congress will be "**Global Technology Cooperation for Renewable Energy**".

Energy Security is vital to the growth and development of a nation. In India too, the demand for energy has seen a rapid growth in the last decade and is expected to further increase in coming decades. While we must undertake rapid capacity expansion in traditional energy, it has become equally important to develop alternate and renewable sources of energy. Renewable energy can help us to provide environmentally safe and affordable energy supplies to homes and businesses.

India is making serious efforts to leverage state-of-the-art technologies to find solutions to the challenges of enhancing affordable and clean energy supplies. I am confident that **World Re-EnergyTech-2010** will showcase frontier and cutting-edge technologies by global companies. The deliberations in the Congress will facilitate knowledge exchange and experience sharing.

I wish the event all success.

(Farooq Abdullah)

GREEN CONGRESS

18th - 20th
March, 2010
Le Meridien
New Delhi
India

Who Should Attend...

Participants will benefit from the high quality information exchange and networking opportunities. The congress will be marked by the presence of key decision makers from the government and corporate sectors in India and abroad namely:

- ❖ Diplomats
- ❖ Senior Government Officials
- ❖ Senior Energy Sector Executives
- ❖ Executives from Private and Public Sector Companies
- ❖ Technologists
- ❖ Entrepreneurs
- ❖ Renewable Energy Associates
- ❖ Advisory Groups
- ❖ Investors, Banks & Financial Institutions
- ❖ Legal, Tax and Technical Consultants
- ❖ Exhibitors – Equipment Supply and Services Companies
- ❖ Environmentalists
- ❖ NGOs and Non-Profit Organizations
- ❖ Academia

Gains Envisaged

- ❖ Global Co-operation
- ❖ Technology Development and Diffusion
- ❖ Capacity Building
- ❖ Establishing New Horizons for Development and Innovation
- ❖ Project Management and Financing
- ❖ Global Exposure to Opportunities for Business Development and Rural Development
- ❖ Innovative Solutions for Sustainable Development

The congress would certainly speed up the process of change and help to maximize the share of renewable energy in the total energy mix, through co-operation
